USAFV-DOC-GDPR-001
General Data Protection Regulation Policy v1.0**

PRIVACY POLICY

Effective Date

United States Armed Forces Virtual complies with the General Data Protection Regulation (GDPR valid from May 2018) and with the Children's Online Privacy Protection Act of 1998 (COPPA). The European Union does not have an independent law that addresses the protection of children's data similar to the United States' Children's Online Privacy Protection Act of 1998.

Rather, it addresses the protection of children's data throughout its General Data Protection Regulation by indicating which provisions within the GDPR warrant a higher standard to protect children's data. Aside from a vagueness as to the requirements for parental consent, however, the GDPR's provisions may still provide for as strong an application and thus as strong a protection of children's data as COPPA.

Purpose of policy

This policy has been put in place to achieve the following aims:

- To comply with the law, particularly the EU General Data Protection Regulation and with the Children's Online Privacy Protection Act of 1998 (COPPA).
- To ensure good data protection practice
- To protect members, staff, and other individuals
- To protect the United States Armed Forces Virtual organization

Age Limitation

Pilots must be a minimum 16 years of age in order to apply for membership and fly with United States Armed Forces Virtual. If your VA/VSO allows people under the age of 16 you may need to get consent from the members parent/guardian concerning the data collection process.

Personal Data We Collect:

United States Armed Forces Virtual collects the following personal data:

- First name
- Last name
- Password
- Birthdate
- Email address
- Country and City
- VATSIM ID
- IP Address
- Additional items may need to be added to this list pursuant to the data collected by your website.

Consent to Collect Data

We collect information from you when you register for the airline, register on our website, fill out a form, or submit any external information through a third-party application (i.e. submitting a PIREP). When registering on our site, as appropriate, you may be asked to enter your name, e-mail address, age, etc. You may, however, visit our site anonymously.

By applying to United States Armed Forces Virtual and using our site and services, you are giving United States Armed Forces Virtual permission to collect personal data that will only be used by United States Armed Forces Virtual.

How We Use the Information We Collect:

United States Armed Forces Virtual uses your data for the purpose of conducting services offered by United States Armed Forces Virtual such as but not limited to the participation as a United States Armed Forces Virtual pilot, pilot certifications, pilot advancements, access to Aircraft, scenery, and awards offered by United States Armed Forces Virtual. Some of this data is also used in cookies. Cookies are small files that a site or its service provider transfers to your computer's hard drive through your web browser that enables the site's or service provider's systems to recognize your browser and capture and remember certain information. We use cookies to understand and save your preferences for future visits (i.e. keep you logged into the website). Although the use of cookies in your web browser is not mandatory, they aid in allowing the web browser to remain logged into our website. We may also contact you via email with announcements of upcoming events, and important information related to United States Armed Forces Virtual. Any of the information we collect from you may be used in one of the following ways:

- To maintain your status as an active pilot.
 - Your information helps us establish and update your profile, as well as keep track of your progress and hours while flying for the Virtual Special Operations Organization.
- To personalize your experience
 - Your information helps us to better respond to your individual needs.
- To improve our website.
 - We continually strive to improve our website offerings based on the information and feedback we receive from you.
- To improve our operations.
 - Your information helps us to effectively streamline our operations as a Virtual Special Operations Organization.
- To administer a contest or promotion or run an event such as those conducted on the VATSIM network.
- To send periodic emails.
 - The e-mail address you provide may be used to send you information, respond to inquiries, and/or other requests or questions.

Data Retention:

United States Armed Forces Virtual will typically retain your data after you have chosen to be removed from our Pilot Rosters. By retaining the records of pilots, we provide a quick and easy solution for pilots to resume their operations without having to complete the training programs over again. You may request at any time to be placed in an "Separated" status from our rosters which will remove you from any daily communications such as emails or participation requirements. United States Armed Forces Virtual will retain your flight data and operational records but will remove your personal information for these records upon request.

Personal Information Distribution:

We do not and never sell, trade, or otherwise transfer to outside parties any of your personally identifiable information. This does not include trusted third-party software who assist us in operating our website or servicing you, so long as those parties agree to keep this information confidential. We may also release your information when we believe release is appropriate to comply with the law, enforce site policies, or protect ours or other rights, property, or safety.

Transparency and Choice:

We will be transparent about our practices, so that you can make meaningful choices about how your personal information is used. If we make a material change, we will provide prominent notice by posting a notice on our service on this website page and/or we will notify you through our discord channel, or by email.

Data Controller:

User data collected by United States Armed Forces Virtual is managed by the United States Armed Forces Virtual management team. We implement a variety of security measures to maintain the safety of our personal information when you enter, submit, or access your personal information. Please note that we cannot guarantee that any data transmission over the internet is completely secure. Our email address for this team is: hq@usafv.com. If we decide to change our privacy policy, an email will be sent to all United States Armed Forces Virtual members and VA or VSO's Partners. Additionally, we will post notice about these changes on the forums and main website index.
